

**Woodcarve in  
the Beautiful  
Texas Hill Country**

## *Larry Stanfield*

*April 1, 1939 - February 19, 2014*

Sadly we have lost a friend Larry Stanfield. Larry passed away February 19, 2014 a mere two months after being diagnosed with Lung Cancer. Larry will be missed at the many woodcarving events he and Donna attended. Larry was a man of many talents and would do anything to help the guild or individuals. He loved carving, music and people. You may not have always agreed with Larry but you knew where he stood. You couldn't help but enjoy Larry for his openness, cheerful words and acts of kindness. Please join us in helping Donna remember the good times we had with Larry. It will take several of us to match the contributions Larry and Donna made to the Guild.

*" Donna, Darlene and I both share in your loss. We will miss waving to and visiting with Larry when he would stop by the house. I really enjoyed the brief times we were able to share a few moments talking. In a short time, I considered Larry a true friend. His carving abilities simply took my breath away. Now, he can meet the One who creates the living, breathing birds that beautify our trees and skies, the Carver of Life. We hold you in our prayers,*
